

Drip Drip at The Fontenay Spa - Health infusions with a view of the Alster

Hamburg, March 2024 - Since spring 2024, guests at The Fontenay Hotel in Hamburg have been able to give their health and well-being a new boost. The infusions of the "Drip Drip" brand from Hamburg-Eppendorf can be administered to hotel and external guests in a treatment room in The Fontenay Spa or in the hotel room by expert staff.

The collaboration between the Drip Drip - IV Therapy Bar and the experts at The Fontenay Spa enables efficient and personalised nourishment in a relaxing and beautiful setting. The treatments can be tailored to individual needs following a consultation with the medically trained staff. There are different drips such as the Beauty Drip, Perfect Age Drip, Immune Drip or The Fontenay Drip. After the anamnesis, the nutrients are administered in your own room or in the spacious Fontenay Spa with a view of the Outer Alster. In the meantime, you can relax and read or enjoy a cup of tea.

Without a diversion via the digestive tract, infusions allow nutrients, vitamins and fluids to be delivered directly into the bloodstream. This allows the substances to be absorbed more quickly by the body. There are various drips that can strengthen the immune system, reduce stress, provide energy or support a healthy lifestyle. The micronutrients from Drip Drip are produced by a German pharmacy manufacturer. The ingredients are fully absorbed through the bloodstream. The drips do not contain any other additives, as can be the case with oral food supplements, for example.

High above the rooftops of the city - with a direct view of the relaxing scenery of sailing boats and Alster steamers - the Fontenay Spa is located on the sixth floor of the hotel. On 1,000 m², high-quality equipment meets experienced experts and therapists, exclusive products from the Prof. Dr Steinkraus brand and a light-flooded, warm atmosphere. When swimming in the 20 metre long indoor and outdoor pool with a water temperature of 29.5°, the infinity pool and the outer Alster seem to form a common waterline. The luxurious spa concept includes a total of five treatment rooms for beauty treatments and massages. The wellness area also has various relaxation zones, a Finnish sauna (90°) with a panoramic view of the city, an aromatic quartzite steam bath (45°), experience showers and a fitness room. The Private Spa Suite can also be booked for up to six people.
